SUMMARY

I am currently a 3rd-year Computer Science Engineering (CSE Core) student at VIT Bhopal. I have passion for Software Development, and I actively engage in the latest technology trends, focusing on Java. My curiosity also extends to Web-Development and I enjoy traveling to explore new perspectives and as a Hobby, I like playing Cricket.

TECHNICAL SKILLS

Programming Languages: Java, Python.

Deep Learning Frameworks: TensorFlow

Libraries & Tools: NumPy, Pandas, Scikit-learn

PROJECTS

Skin Disease Detection System
CNN Based Project
- Developed for identifying skin related diseases from images
- Utilized CNN and LSTM models for image feature extraction
- Recommend suitable doctor for health assistance from dataset

EDUCATION

HILL GROVE COL'S ACADEMY
10+2 Education
- Class – X: 90%
- Class – XII: 85%

Vellore Institute of Technology- Bhopal
Bachelor of Technology – BTech
- Computer Science Engineering (CSE)

CERTIFICATIONS

- Infosys Springboard (Software Engineering & Agile software Development)
- Coursera IBM (ML with Python)
